## Advisory Action Before the Filing of an Appeal Brief

Application No.	Applicant(s)	
09/541,187	LAKHANI, ABDUL-KARIM	
Examiner	Art Unit	<del>-</del>
Usha Raman	2616	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --THE REPLY FILED 03 February 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. 1. 🖾 The reply was filed after a final rejection, but prior to filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods: \_months from the mailing date of the final rejection. b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). NOTICE OF APPEAL 2. 🔲 The reply was filed after the date of filing a Notice of Appeal, but prior to the date of filing an appeal brief. The Notice of Appeal was filed on \_\_\_\_\_. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a). **AMENDMENTS** 3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because (a) They raise new issues that would require further consideration and/or search (see NOTE below); (b) They raise the issue of new matter (see NOTE below); (c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or (d) They present additional claims without canceling a corresponding number of finally rejected claims. NOTE: See Continuation Sheet. (See 37 CFR 1.116 and 41.33(a)). 4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324). 5. Applicant's reply has overcome the following rejection(s): 6. Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s). 7.  $\boxtimes$  For purposes of appeal, the proposed amendment(s): a)  $\boxtimes$  will not be entered, or b)  $\square$  will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended. The status of the claim(s) is (or will be) as follows: Claim(s) allowed: Claim(s) objected to: \_\_ Claim(s) rejected: \_ Claim(s) withdrawn from consideration: \_\_\_\_ AFFIDAVIT OR OTHER EVIDENCE 8. The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e). 9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1). 10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached. REQUEST FOR RECONSIDERATION/OTHER 11. A The request for reconsideration has been considered but does NOT place the application in condition for allowance because: See attached sheet regarding claims 9 and 21... 12. 🔲 Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) 🖊 ap 13. 🔲 Other: \_\_\_\_\_.

Application No.

Continuation of 3. NOTE: Proposed Amendment on claim 1 present new issues that would require further consideration and/or search.

Art Unit: 2616

## Response to Arguments

1. Applicant's arguments filed February 3<sup>rd</sup>, 2005 have been fully considered but they are not persuasive.

Applicant argues in pages 4-5 that the modification of Applicant's prior art system in view of Bodeep in further view of Freyman's teachings is inappropriate because, "the equipment is expensive and is duplicated at each set top box". The examiner asserts that applicant has misunderstood the modification of the system stated in the Final Office Action. The modification of the prior art system in view of Bodeep's teachings comprises the up conversion and transmission of signals from a two-way device for transmission to a feeder line end. The signals are down converted at the feeder line end and transmitted back to the headend. This modification teaches transmitting the down converted signals back to the head end over a separate transmission path and therefore is lacking the step of transmitting the down converted signals along the corresponding bi-directional feeder line. Freyman is relied upon for the step of receiving, down-converting signals and transmitting the down converted signal over the same bi-directional coaxial cable. Therefore Freyman teaches the step of applying a down converted signal for transmission along the same coaxial cable it received signals from.

With regards to claims 38-41, applicant argues that, "teachings of the references are contradictory" because "Baran teaches to bypass filters at the set top box". The examiner respectfully disagrees. Applicant has

misunderstood the modification. The citied portions in Baran are relied upon for the well-known use of high pass filters mounted at taps, and therefore preventing any of the lower frequencies from entering the feeder line. The modified prior art system already teaches that the two way communication device transmits return signals in a high frequency. The system is further modified in view of Baran's disclosure of a well known teachings for placing high pass filters at taps to prevent low frequencies from entering the feeder lines. This modification does not result in any contradiction as the modified system still uses a two-way communication device for transmitting return signals in a high frequency, and the high pass filter placed at the tap simply blocks all the lower frequencies.

## Conclusion

 Any inquiry concerning this communication or earlier communications from the examiner should be directed to Usha Raman whose telephone number is (571) 272-7380. The examiner can normally be reached on Mon-Fri: 9am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Faile can be reached on (571) 272-7375. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
